Job Description:

Position: Conservation Intern

Start Date: February 2021

Duration: 3 - 6 Months

- February - May
 - May - July
 - August - October
- (start dates to be confirmed in interview)

Days Off/Leave:

- 4 days off/month
- Emergency/Medical Leave - 14 days (not to be combined with days off)

General Tasks/Responsibilities

- Assist with the range of tasks and activities being carried out as part of the daily running of the project; cleaning, recycling, construction, interacting with local people or tourists
- Support program leaders. Eg Coral Rehabilitation, to help them achieve their goals when additional man power or expertise is required.
- Be a point of contact for volunteers both professionally and socially
- Lead volunteers in activities both practical and educational
- Assist in the running of school programs and activities
- Take part in daily/nightly beach patrols
- Relocate eggs and record data

General Requirements

Experience

- Preferred prior experience working in a turtle hatchery
- Preferred prior experience knowledge and understanding of sea turtle conservation, coral reef ecology and marine life
- Preferred prior experience in a volunteer project environment
- Preferred prior experience in working with school children

Skills

- Must be fluent in written and spoken English
- Preferred fluency in written and spoken Malay
- Strong organisational skills: able to plan work for self & others with clear instructions and focused outputs.
- Good communication skills (both written and verbal): able to provide information to a range of audiences.
- Strong swimmer, comfortable with ocean conditions
- Must be able to use computer software to generate: reports, spreadsheets and power point presentations

Behavioural/Personal Qualities

- Must be able to work independently as well as part of a team.
- A problem solver able to balance needs within the constraints of the project's resources, manpower and/or funding.
- Able to be flexible and re-prioritise workload in response to changes in the project's needs
- Must have an engaging attitude, able to build relationships with diverse groups of people
- Strong commitment to conservation and passion for the natural world

Preferred Qualifications/training

- Bachelor's Degree in Marine Biology, Marine Science, Environment Sciences or other related fields.
- Training in sea turtle rescue/care/rehabilitation
- Certified SCUBA diver with at least 40 dives (strongly preferred)
- Life guard training
- Emergency First Aid training or Emergency First Responder
- Experience in operating/maintaining small boats and outboard engines
- Good practical skills eg mechanic or construction

Although the position is unpaid, this is a great opportunity to get involved with a small but rapidly growing organisation. This means that your work has a real impact on the success of the project and you will be able to gain knowledge and experience that could form the basis of a career in conservation. Food & accommodation will be provided on site and travel to Tioman will be covered by the project (travel to Malaysia not included).
